

Instructions for Exporting QuickBooks dat

Where did my worksheet go?

When you export data to a new workbook, your new worksheet containing exported data go the new worksheet is placed in front of the last active sheet where it will be named "SheetX"

How do I make sure this tips sheet isn't exported with the QuickBooks report in the final workbo

Before exporting, on the Export Report Basic tab, deselect the option to include the instructi

How can I customize and update my worksheet?

You can set up Excel links between 2 or more worksheets. (See Microsoft Excel Help for de feature to setup links between a QuickBooks summary report and your customized sheet.

- >> *Choose one sheet as your source worksheet into which you'll export QuickBc customize your data and link the data between that sheet and the source works*
- >> *Export your source data to an existing worksheet and overwrite the current d*
- >> *Create Excel links between a QuickBooks data worksheet and another works*

Troubleshooting: Why don't my links work correctly after exporting data?

Be aware that any difference in the structure of the current report from the report that you us in the links between worksheets. If you are seeing wrong data in your customized worksheet

- >> *Moved or deleted elements, or changed the structure of the report in some w*
 - You might have moved or deleted items from item list which gets use
 - You might have moved or deleted accounts from accounts list which
